## WE ARE AVA – Reminiscing

**WE ARE AVA** is a three-part indie group based in eastern Switzerland, specializing in creating captivating synthpop music. They have been in the music industry since 2019 and have released multiple singles and two albums. Their latest album, **Radix**, contains twelve fascinating tracks with organic beats and gripping melodies. The band comprises three talented musicians: Kim on the vocals, Nicola on the keys, and Andy on the percussions. The trio skillfully combines their styles to create a unique and vibrant soundscape.

One of the album's tracks is called **Reminiscing**, a song with strong electronic tones and a fast-paced beat contrasting with the song's nostalgic vibe. The tune immediately starts with Kim's soothing vocals in a melodic rhythm. This is backed up by whole notes provided by Nicole on the keys and the dynamic beats brought by Andy. These elements are blended impressively to form an enjoyable sound for audiences. WE ARE AVA can capture the feeling of racing thoughts and melancholic emotions in this track through driving beats and reflective lyrics. Reminiscing stands apart from the album's other songs by exploring a different theme while retaining the band's core. Check out the other songs from the album such as Happy, Keep Me Guessing, and You which have the most streams and the same catchy style of the band. With its punchy lyrics, catchy melody, and consistent rhythm from the beginning to end this track is innovatively brilliant by combining a fast-paced beat with a slower nostalgic theme.
